

Watergun, heavy duty model, exclusive / brass

Item no. 0413

Comfort, sustainability and efficiency combined in one spray gun

Powerful cleaning with less water

With its compact size and ergonomic handle, it sits comfortably in the hand. The velvety soft rubber surface adds further comfort. In addition, it weights only 945 grams.

The spray pattern of the watergun is unsurpassed. Due to be exactly positioned nozzle tip, there is a very equal distribution of water, wherein with the trigger the shape of the jet can be changed easily from a wide cone to a narrow point. A precise adjustment of spray pattern and trigger positions is possible with the set screw at the rear. With the out folding clip that can be done quickly and without any tools.

The nozzle has the revolutionary flat design from FBK so that dripping is prevented during spraying, even with the use of the widest jet. In addition, the orifice is dimensioned such that the gun uses at least 16% less water than a regular cleaning gun.

Adjustable spray angle

Technical data:

• Body material	: Brass CuZn36Pb3
• Lever, pusher and trigger guard	: Stainless steel X5CrNi18-10 (AISI 304)
• Nozzle shaft and spring	: Stainless steel X5CrNi17Mo-12-2 (AISI 316)
• Rubber protection	: EPDM
• Seals	: EPDM (FDA)
• Inlet connection	: 1/2" BSP female
• Maximum temperature	: 95 °C
• Maximum pressure	: 30 bar
• Flow at 4 bar	: 22,2 l/min
• Weight	: 880 gram
• Size	: 190 x 145 x 50 mm

*** Although all used materials can withstand temperatures up to over 100°C, it is strongly recommended to take special precautions when using hot water
